

RATHER BE DIVING

We hope to bring you information about dive sites, critters and our coming events, activities and specials. We are open to adding your insights to dives in as well as your pictures. Please feel free to send them to adssales@charter.net.

Advance Class

Are you being left out on dive trips due to you limited Open Water Certification? Want to up your rating? Looking to be able to dive those deep dives? Come and see us about earning your Advanced Certification. You can complete the classroom portion on-line and then schedule your 5 dives for the Ocean. We can even schedule the dives on one of our trips in warm water if you prefer. We offer 2 training agencies for this certification; PADI and SDI. You can sign-up for the online course by going to our website at www.aquaticdiscount.com and clicking on either SDI or PADI links provided for you.

Critter Corner

Hawksbill Sea Turtle

These little guys are on the endangered list. They were the primary source for tortoise shell material in decorated items. Now they are protected under the World Conservation Union. These guys are like most sea turtles flattened bodies with large flippers for swimming in the open ocean. They spend most of their time in lagoons or coral reefs eating selective sponges, algae, jelly fish and anemones. They generally live a solitary life other than during mating season.
